

Lyons & Co. Bio

A rising Voice on the Americana scene, Lyons & Co front-woman Bridget Lyons is truly a self-made success story and is a creator in multiple genres. Prior to her Lyons & Co's 2024 album Southern Rock & Nicotine, Bridget previously released two albums under her name. She has performed with a number of renowned musicians, from famed bluegrass artists to R&B legends including Brandy Norwood (aka Brandy).

Lyons' honey-and-gravel sound is rooted in an upbringing soundtracked by the Southern Rock, Delta blues and Chicago R&B. She learned how to play the guitar by watching her dad, a slide blues guitarist and spent her summers working on her grandfather's farm where the only radio station for miles got her hooked on country music.
